August 11, 2017

Cypress & Grove Brewing Company. The newest craft brewery in Alachua County has opened for business and is starting to become a favorite weekend destination for craft beer lovers throughout Gainesville. Cypress & Grove Brewing Company is located on the corner of NW 10th Ave and NW 4th St (historic Cypress Ave. and Grove St.). "In the early 1900's, the building that houses the brewery was the home of the Gainesville Ice Factory. The heart of the brewery all starts at the 400 foot artesian well that draws directly from the Floridan Aquifer" states Gary Heil, owner and co-founder.

The brewery features six distinct brews all created on-site, inspired by a combined 35 years experience in home-brewing from owners Patrick Burger and Gary Heil. While they may be new to having a public space to taste their creations, they are no strangers to brewing amazing beer. "The best way to experience all of our current beer styles is to order a flight tasting, which is a small sampling of your choice of Blonde, Wheat, Pale Ale, IPA, Porter or Stout", states Gary Heil. "While many in Gainesville will love the taste of our cascade hop west coast style beers, we also have options for the non-beer drinkers" states Anna Heinemann, owner and wife of Gary. "Cypress & Grove provides seltzer water that comes from our well, just like our beer. We offer a variety of homegrown flavorings from our own garden or from my family's farm. Our Tart Cherry syrup was made from fruits grown and hand pitted with love by my family in Iowa! Beyond our seltzer, we also provide wine and kombucha. We try to offer something for everyone at Cypress & Grove."

The brewery is yet another amenity added to this fast-growing community as part of an effort to preserve the history of our fine city, but also to be a place for those that call Gainesville home and want to impact and grow our community. "One of the many inspirations of Cypress & Grove Brewing Company has been the idea of providing a space where people could build and foster good friendships and have interesting conversations over delicious brews" said Patrick Burger, brewer and co-founder. "Inspired by the beer halls and public houses of Europe, at Cypress & Grove we are working to create a space for Gainesville residents to connect, enjoy good beer, meet with friends and family, share thoughtful musings and conversations, collaborate creatively with colleagues and companions, and see what comes of it all" states Sally Adkins, owner and wife of Patrick.

The grand opening of the Cypress & Grove Brewing Company will take place on Saturday, August 12, 2017. The grand opening will run from 3pm to 10pm. The celebration will highlight tastings and brewery tours, the exquisite tastes from local Gainesville favorites, complimented by live music from Michael McCarthy. Cypress & Grove Brewing Company is open Friday and Saturday 3pm to 10pm, Sundays and Mondays 3pm-9pm.
